

How to Use Your New Collection Calendar

1. Locate the area on the map in which you reside. Determine the colour of your collection area and corresponding area number. For example, Thursday Area 7 is light green and Thursday Area 8 is dark green.
2. Turn to the page in the calendar that corresponds to your collection area. There is a unique calendar for each collection area, so you only need to follow that collection schedule.
3. Your waste collection schedule will change when there is a holiday, so please check your schedule carefully to determine which day each type of waste is collected.
4. This waste calendar shows your collection schedule from July 2008 to June 2009 - Keep it handy!
